SAFETY CONE

PRODUCT NUMBER: 1190 - 18" CONE
 1191 - 28" CONE
 1192 - SAFETY CONE KIT 3-PACK
 1193 - SAFETY CONE KIT 5-PACK

I. GENERAL DESCRIPTION

Features: Aervoe Safety Cones are full size traffic/ safety cones designed to collapse to 2" for storage. The #1190 expands to 18" (45cm) and the #1191 expands to 28" (70cm) and both have 2 reflective strips. Includes a red LED light for the top of the cone for greater night visibility and a storage case. The #1191 has 4" and 6" reflective bands (MUTCD compliant) and a 2½ lb. weighted base.

Benefits: The Safety Cones are made with durable ABS plastic in the base and the cone is a bright, durable nylon with 2 reflective gray bands, which can be seen up to 1000 feet (300m) away. The included Red LED Light acts as a beacon for added nighttime visibility. A Yellow LED Light is also available. Two AAA batteries are required to operate the beacon (not included). All materials are highly durable and made to withstand outdoor conditions.

3- and 5-pack kits are available for the 28" Safety Cone to comply with national NFPA 1901 Fire Vehicle and Apparatus requirements. Also complies with MUTCD, FHWA and other local and state requirements for safety cones on commercial and utility vehicles.

Uses: May be used as a replacement to or along with standard rubber safety cones to indicate hazards, including construction, police or fire activity, surveying. Ideal for police and other emergency services, command vehicles, construction crews, HAZMAT units, industrial facilities, schools, passenger vehicles, sporting events, surveyors, utility crews, and much more. For added visibility use with any Aervoe LED Road Flare and Flex-Fit Tripod.

Directions: Remove cone from the storage bag. Remove the LED Light from the base of the #1191 or the bag of the #1190. With one hand holding the base of the cone and one finger inserted into the center hole, firmly pull up to extend the cone to it's full size. Install 2 AAA batteries into the LED Light. Push the button on the bottom of the light to activate and place on top of the cone. LED Road Flares can be added to the top of the cone using the Flex-Fit Tripod as a post.

Traffic Safety Compliance:

1. MUTCD and FHWA (requirements for safety cones)
2. NFPA 1901, Section 6.7.3 (all fire trucks and related vehicles must carry at least 5 28" cones)

Accessories & Complimentary Products:

#1195 Red LED Safety Cone Light

#1196 Yellow LED Safety Cone Light

An array of LED Road Flares and LED Baton Road Flares; and #1159 Flex-Fit Tripod are available

Packaging:

#1190 each:	2 lbs. (0.9 kg)	0.13 CF (0.004 CM)	12" L x 11" W x 1.75" H
6/case:	13 lbs. (5.9 kg)	0.92 CF (0.03 CM)	12" L x 12" W x 11" H
#1191 each:	5 lbs. (2.27 kg)	0.20 CF (0.006 CM)	12.5" L x 12.5" W x 2.25" H
6/case:	31 lbs. (14.1 kg)	1.3 CF (0.04 CM)	13" L x 13.25" W x 13" H
#1192 each:	15.5 lbs. (7 kg)	0.73 CF (0.02 CM)	13" H x 13" W x 7.5" H
1/case:	17 lbs. (7.7 kg)	0.96 CF (0.03 CM)	14" L x 14" W x 8.5" H
#1193 each:	25.5 lbs. (11.6 kg)	1.05 CF (0.03 CM)	13" L x 13" W x 10.75" H
1/case:	27 lbs. (12.3 kg)	1.3 CF (0.04 CM)	14" L x 14" W x 11.5" H
