STRIPER MACHINES

PRODUCT NUMBER: 800 - Vers-A-Striper (pavement) 801 - Vers-A-Striper (turf and dirt)

I. GENERAL DESCRIPTION

Description: These heavy duty, metal striping machines are specifically designed for use with Aervoe Striping Paints on a variety of surfaces.

Benefits: The Aervoe #800 and #801 Vers-A-Striper units feature all steel construction, a wind screen for clean paint lines, a metal pointer arrow, and the capacity to carry one full case of paint. They also have a radius wheel attached to the back of the unit for creating arcs and circles. The 800 VAS has 7 inch wheels and is designed for use on most smooth surfaces. It will spray lines approximately 2 to 4 inches wide. For turf or dirt applications, use the #801 model with larger 10 inch wheels for additional ground clearance over grass, gravel and dirt. It will spray lines approximately 2 to 6 inches wide. **Note:** When either model is set at the highest adjustment for the widest stripe, the line edges may not appear as crisp as they do with the more narrow settings.

Application: Use on athletic fields, parking lots, industrial plant facilities, playgrounds, municipalities, etc.

Directions: Review instructions supplied with the unit, and back panel of Striping Paint can before use.

II. Packaging:

Vers-A-Striper 800 & 801	16 lbs. (7.3 kg)	2.3 CF	(0.65 CM)
