MAX BURTON® 12-V HEATED BLANKET

PRODUCT NUMBER: 6997

I. GENERAL DESCRIPTION

Features: The Max Burton® 12-volt heated blanket is a polar fleece blanket that plugs into any 12-volt power receptical. The blanket is 59" x 43" and includes an 8' power cord that has a power indicator light.

Benefits: This blanket will keep you comfortably warm during road trips or while camping. Use anywhere where 12-volt power is available.

Uses: Long road trips, camping, long-haul trucking, or anywhere with a 12-volt power receptical. Use with the #6993 200w Converter to plug the Blanket into any 120V electrical socket.

Warnings: Read and understand the instructions and labels before operating. This appliance will not automatically turn off. Administer close supervision when using around children.

Accessory

#6993 200w Converter
